The Gov's Substitute Unravels Decriminalization

Delegate Krizek and Senator Aird worked for months with us and stakeholders from across the Commonwealth to write a bill that was not perfect, but it was really good.

The Governor's amendments undo the work of so many and undermine the repair we have been working on.

Gov's Substitute Bankrupts Equity Funds?

- Without equity funding, minority and local businesses lose out.
- Big out-of-state companies will dominate the market.
- Federal barriers already block access to capital for Black-owned businesses.
- Only 29% of businesses are profitable — equity funds are about repair and opportunity.

Gov's Substitute reinstates & increases criminal penalties

Adding new criminal penalties repeats the failed War on Drugs Playbook and will again hit marginalized communities the hardest.

Public Consumption:
\$25 Ticket → Class 4 misdemeanor

Youth Possession:
\$25 Fine & Program → Class 1 misdemeanor, mandatory minimums of fines, community service & loss of driver's license

NEW: Life in prison for trafficking across state lines

What does the data say?

Virginia's data shows racial disparities of all enforcement.

Quotes from the Virginia Joint Legislative Audit Review Committee in 2021:

- "Statewide, Black Virginians have historically been arrested and convicted of marijuana crimes at a disproportionately higher rate."
- "The higher arrest and conviction rates for Black individuals are not attributable to differences in rates of marijuana use."
- "Racial disparities in marijuana possession arrests were found in all 58 counties where there was sufficient data."

Call to Action

Tell your legislators:
Call or email your representative and tell them to stand with Delegate Krizek and Senator Aird to REJECT the Governor's Amendments to SB510/HS612.

To find your representative — www.rvr.gov/governorassembly.gov

Tell the Governor:
Call or email the Governor's Office and let them know you want a retail market that centers repair, access, and equity and you do NOT support her amendments. She should sign the original bill sent by the general assembly.

"They are advised to remain quiet..."

Unapologetically, our ancestors responded in a resounding refusal.

Today, we celebrate that persistence. Tomorrow, we continue to persevere.
